**REQUEST FOR RECONSIDERATION AND
RENEWED PETITION UNDER
37 CFR 1.47(b)**

Mail Stop PCT
Commissioner for Patents
Office of PCT Legal Administration
P.O. Box 1450
Alexandria, VA 22313-1450

The following is submitted in response to Decision on Petition Under 37 CFR 1.47(b) dated December 19, 2005.

First, with regard to Item No. 2 (proof of unavailability or refusal) the action states that it is unclear as to whether the May 4, 2005 letter was returned as undeliverable. Applicant hereby states that the May 4, 2005 letter was not returned as undeliverable, and to the knowledge of Applicant, the letter was duly delivered to the address shown on the letter. In a further effort to contact the inventor, Applicant sent a further letter on July 13, 2006. A copy of this further letter together with a delivery receipt from DHL is attached as Exhibit A. Applicant has received no response from the inventor to either the May 4, 2005 letter or the July 13, 2006 letter.

CERTIFICATE OF MAILING (37 C.F.R. § 1.8)

I hereby certify that this paper, and the papers and/or fees referred to herein as transmitted, submitted or enclosed, are being deposited on the date shown below with the U.S. Postal Service with sufficient postage as first-class mail in an envelope addressed to Mail Stop PCT, Commissioner for Patents, Office of PCT Legal Administration, P.O. Box 1450, Alexandria, VA 22313-1450.

Name Daniel H. Golub

Signature

Date of Deposit July 19, 2006

Second, with regard to the inventor's last known address, the Action asks whether Applicant has attempted to locate Mr. Saunders last known residence address. Paragraph 5(b) of the undersigned's May 6, 2005 declaration references the Internet searches performed for the purpose of identifying Mr. Saunders' last known residence address. Those searches yielded no useful results. Applicant has since updated those searches, and is unable to identify any current or previous residence address for Mr. Saunders. The only address for Mr. Saunders known to Applicant is the former business address identified on the May 4, 2005 and July 13, 2006 letters.

Third, regarding Item No. 4, attached is an oath or a declaration executed on behalf of, and as agent for, the nonsigning inventor.

Fourth, regarding Item No. 5, attached is a letter from Counsel in the Netherlands demonstrating that Applicant has a proprietary interest in the invention.

In view of the above, it is respectfully requested that Applicant's Petition under 37 CFR 1.47 (b) be granted.

The Commissioner is hereby authorized to charge any deficiency in the fees due in connection with this filing Deposit Account 50-0310. A duplicate of this authorization is enclosed.

Respectfully submitted,

Daniel H. Golub

Re: U.S. Patent Application No. 10/510,082 entitled
"Stage Device for a Vacuum Chamber"

Dear Mr. Saunders:

We are forwarding to you today a copy of International Patent Application No. PCT/NL03/00247. On October 1, 2004, a National Stage application corresponding to International Application Patent Application No. PCT/NL03/00247 was filed in the U.S. Patent and Trademark Office (USPTO). The U.S. patent application has been assigned serial no. 10/510,082.

Mapper Lithography IP B.V. filed this application with the USPTO. We are forwarding the application to you because it is our initial understanding that you are an inventor of the subject matter of the patent application.

We ask that you carefully review the application. If, after reviewing the enclosed patent application, you believe that the application should not identify you as an inventor, we ask that you so inform us immediately. If the application properly identifies you as an inventor, and meets with your approval, we request that you then execute and return to us (for filing with the USPTO) the enclosed Declaration. Please return the executed documents to our office in the United States by fax at 215-963-5001.

In connection with execution of the Declaration, please carefully review the Declaration and any information that we have entered onto it, and fill in any missing information under your name in

blue ink. By "residence" address is meant the city and state of residence. The "mailing" address is the (full) address at which you customarily receive mail. After you have completed the review of the patent application and Declaration, and if the information in the Declaration is correct and complete, please sign and date the Declaration in blue ink where indicated. If any corrections are made, please initial and date the corrections in the margin.

We request that you return by fax the executed Declaration to us (or confirm in writing that you are not an inventor) no later than 12:00 noon (EST) on May 7, 2005. We will construe a failure to meet this deadline as a refusal to execute the Declaration.

Sincerely,

Daniel H. Golub

WARNING:

Petitioner/applicant is cautioned to avoid submitting personal information in documents filed in a patent application that may contribute to identity theft. Personal information such as social security numbers, bank account numbers, or credit card numbers (other than a check or credit card authorization form PTO-2038 submitted for payment purposes) is never required by the USPTO to support a petition or an application. If this type of personal information is included in documents submitted to the USPTO, petitioners/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14). Checks and credit card authorization forms PTO-2038 submitted for payment purposes are not retained in the application file and therefore are not publicly available.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under 18 U.S.C. 1001 and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
